

Leaving Early

Bushfire Survival Planning Template

Not everyone thinks clearly in an emergency. A written and well-practised plan will help you remember what needs to be done during a crisis. It also lists the preparations you will need to do to help you become fire ready.

Your plan needs to outline:

- Actions leading up to the bushfire season
- Actions during the bushfire season
- Actions leading up to fire risk days
- Actions on fire risk days.

Know your daily fire danger rating

The Fire Danger Rating predicts fire behaviour (should a fire start) and how dangerous it would be to put out. The higher the rating, the more dangerous the conditions. Fire Danger Ratings feature in weather forecasts during the fire season.

To check your district's daily Fire Danger Rating, visit cfa.vic.gov.au or call **1800 226 226**.

	WHAT DOES IT MEAN?	WHAT SHOULD I DO?
CATASTROPHIC	<p>If a fire starts and takes hold, lives are likely to be lost.</p> <ul style="list-style-type: none"> ▶ These are the most dangerous conditions for a fire. 	<p>For your survival, leave bushfire risk areas.</p> <ul style="list-style-type: none"> ▶ Your life may depend on the decisions you make, even before there is a fire. ▶ For your survival, do not be in bushfire risk areas. ▶ Stay safe by going to a safer location early in the morning or the night before. ▶ Homes cannot withstand fires in these conditions. You may not be able to leave and help may not be available.
EXTREME	<p>Fires will spread quickly and be extremely dangerous.</p> <ul style="list-style-type: none"> ▶ These are dangerous fire conditions. ▶ Expect hot, dry and windy conditions. 	<p>Take action now to protect your life and property</p> <ul style="list-style-type: none"> ▶ Check your bushfire plan and that your property is fire ready ▶ If a fire starts, take immediate action. If you and property are not prepared to the highest level, go to a safer location well before the fire impacts. ▶ Reconsider travel through bushfire risk areas. ▶ Leaving bushfire risk areas early in the day is your safest option.
HIGH	<p>Fires can be dangerous.</p>	<p>Be ready to act.</p> <ul style="list-style-type: none"> ▶ There's a heightened risk. Be alert for fires in your area. ▶ Decide what you will do if a fire starts. ▶ If a fire starts, your life and property may be at risk. The safest option is to avoid bushfire risk areas.
MODERATE	<p>Most fires can be controlled.</p>	<p>Plan and prepare.</p> <ul style="list-style-type: none"> ▶ Stay up to date and be ready to act if there is a fire.

Tips leading up to fire risk days

- Ensure you have enough petrol or fuel so you don't need to stop to fill up.
- Have cars facing out of the driveway.
- Remove flammable items such as boxes, doormats and furniture from decks and verandahs.

Leaving Early

Bushfire Survival Planning Template

Fill out this Template and take it with you when you leave.

WHAT IS YOUR TRIGGER TO LEAVE?

Your trigger to leave is what prompts you to act. You should use the Fire Danger Rating to determine your trigger. On **Extreme** or **Catastrophic** days you should not be in a bush fire risk area.

Your trigger to leave is:

Extreme **Catastrophic**

When will you leave?

The night before Early in the morning

BEFORE YOU LEAVE	DONE
Add final items to your Emergency Kit such as medications, prescriptions, mobile phone chargers, pet food and water for everyone.	<input type="checkbox"/>
Pack the car, remembering your most important items such as wallet, cards, keys, banking, medical and insurance documents (these should be easily accessible on a USB stick or in an expanding file).	<input type="checkbox"/>
Turn off the gas supply.	<input type="checkbox"/>
Block the downpipes and partially fill the gutters with water, if time permits.	<input type="checkbox"/>
Make sure everyone is wearing protective clothing – long pants, long-sleeved shirts and sturdy shoes such as leather boots. Clothes should be loose fitting and made from natural fibres such as pure wool, heavy cotton drill or denim. Do not wear synthetics.	<input type="checkbox"/>
Tell people you are leaving.	<input type="checkbox"/>
Close all doors and windows and lock doors.	<input type="checkbox"/>
Leave the front or access gate unlocked.	<input type="checkbox"/>
Decide on your primary destination	<input type="checkbox"/>
Decide on your back-up destination	<input type="checkbox"/>

GETTING READY TO GO	DONE
Stay updated on fire information so you will know if a fire has started near you.	<input type="checkbox"/>
Move livestock to a large, safely fenced area and put your pets in a safe place ready for loading in the car.	<input type="checkbox"/>
Pack personal items such as a change of clothing for each person and toys for children and pets and put them in the car.	<input type="checkbox"/>
If your car is behind an electric garage door, take it out of the garage and position it in the driveway facing out or on the side of the road.	<input type="checkbox"/>
Remove any material that could burn easily from around your house, on decks, verandahs and pergola areas. This includes mats and outdoor furniture.	<input type="checkbox"/>

CAUTION

Leaving early is you taking action to protect your life and the lives of your family members. In some conditions, any fire that starts is likely to be uncontrollable.

Leaving early does not mean waiting for a warning or a siren. It does not mean waiting to see or smell smoke. And it certainly does not mean waiting for a knock on the door.

Which radio station/s will you be tuned into?

How will you monitor conditions while travelling away from home?

How will you know it is safe to return?

Other things to consider: How will your plan be affected by several fire risk days in a row?
Remember, it is important to minimise the disruption caused to your household by relocating.
It is best to go to places where you can continue with normal activities as much as possible.

Survival Options

LEAVE EARLY

- > When the Fire Danger Rating is Catastrophic, leaving early is always the safest option.
- > Leave early destinations could include homes of family and friends who live outside the risk area, a nearby town or other built-up area.

ALWAYS THE SAFEST OPTION

WELL PREPARED

If leaving the high risk area is no longer an option, there may be options close to where you are that could protect you.

These include:

- > a well-prepared home (yours or your neighbour's) that you can actively defend
- > private bushfire shelter (bunker) that meets current regulations
- > designated community fire refuge
- > think about how you will get there.

YOUR SAFETY IS NOT GUARANTEED

LAST RESORT

In situations where no other options are available, taking shelter in one of the below may protect you from radiant heat:

- > Bushfire Place of Last Resort (Neighbourhood Safer Place)
- > stationary car in a clear area
- > ploughed paddock or reserve
- > body of water (i.e. beach, swimming pool, dam, river, etc).

HIGH RISK OF TRAUMA, INJURY OR DEATH. GUARANTEED
