Water Monitoring Results: Bangholme Campus – Batch 15-33387

I refer to the attached water test results received from the ALS Group, who undertook the tests in accordance with the water monitoring program set out in CFA's Water Management Plans. ALS Group is an independent laboratory certified by the National Association of Testing Authorities (NATA).

The attached test results indicate that the water sample collected on 7th August 2015 exceeded the criterion in the Flammable Liquid. This tank will not be used for training until corrective action is taken and a successful test result is achieved.

Yours sincerely
