

SUMMER FIRE SAFETY MOBILE

Worksheet 18

Make a summer fire safety mobile for your home or classroom. You will need coloured pencils or textas, six lengths of string (20-30 cm) and scissors. Start by colouring in Captain Koala and his friends. Now cut along the dotted line and punch holes in each piece as marked. Use the string to construct your mobile.

A smaller black and white line drawing of a firefighter character, standing and gesturing with one hand. The drawing is surrounded by a dashed line for cutting.

Bushfire survival plan
