

WHAT IS THE BUSHFIRE RISK?

Worksheet 28

Research your local area to find out about the bushfire risk. Read the newspaper, research on the internet, interview your family or locals in the community, and see if you can find answers to the following questions.

Which Fire Weather District do you live in?

How would you find out what the Fire Danger Rating is for your area?

How many Total Fire Bans were there in your area last year?

Observe your local area. What do you notice about your surroundings that could make it unsafe during the fire danger period? How could it be made safer?

Now share your results with your friends, and see if they came up with the same answers.
