

Stop

Drop

Roll

## > KEY POINTS

- > Always stay one metre away from a heat source
- > If your clothes catch fire, the first thing you do is Stop! Drop to the ground, cover your face with your hands and roll on the ground to smother the flame.
- > Get your students to practise Stop! Drop and Roll!
- > Some fabrics are more flammable than others. There are tags on children's pyjamas that tell if they have low or high fire danger.

### Questions for discussion

**Why do you Stop, Drop & Roll?**

**Why do you stand at least one metre away from a fire or heather?**
