

# BUSHFIRE PLANNING WORKSHOPS

## PLAN TO SURVIVE THIS FIRE SEASON

### What's involved?

In a small group setting you'll work through your plan step-by-step, with guidance from CFA. Our fire safety specialists use maps and other visual tools to explain how a fire might impact your property and how you can use this and other local knowledge to be better prepared for a range of scenarios.

Working alongside others gives you the chance to share ideas, while benefiting from the specialist advice of CFA.

### How can I find out about workshops scheduled for my local area?

Visit [cfa.vic.gov.au/workshops](http://cfa.vic.gov.au/workshops) or contact your nearest CFA district office.

### How long are the workshops?

Usually between two to three hours. This might seem like a long session, but taking a bit of time now will help you to think clearly and make decisions when it really counts.

Remember - if you are caught in a bushfire it will be noisy, smoky, hot and extremely stressful. A well-thought-out plan can save your life.

### Can CFA run a workshop for my group, club or staff?

Yes - if you belong to a club or community group; or have employees who travel in high bushfire risk areas, talk to us about arranging a customised session.

### Where are Bushfire Planning Workshops held?

Workshops might take place at community centres, libraries, fire stations and clubs, so look out for signs and notices around your area.

### How can I get help and advice if I can't attend a workshop?

You'll find information and advice to help you get ready for bushfire at [cfa.vic.gov.au/bushfire](http://cfa.vic.gov.au/bushfire). Or call the Victorian Bushfire Information Line on **1800 240 667** to book CFA's free Home Bushfire Advice Service or request a *Fire Ready Kit* booklet.

**Get help with your fire plan at one of CFA's FREE Bushfire Planning Workshops.**

Whether you've got a bushfire survival plan already or are yet to make a start, these small group workshops will help you put together a plan that ticks all the right boxes.

Planning for bushfire can be tough - why do it alone?

**PREPARE. ACT. SURVIVE.**
