IMPORTANT:

- A copy of the relevant Planning Permit has been included with this application (that includes CFA conditions)
- A hydrant location plan has been included with this application

I have checked the following items and meets CFA requirements as specified in the planning permit:

(Please tick the following boxes if applicable and once completed)

Road & Fire Hydrants (if applicable)

- Fire Hydrant Marker Posts securely installed
- Reflective Road Markers (Blue) installed
- White directional arrows painted on the road surface (If paved or sealed)
- Roads/access are constructed/completed
- Hydrants installed to provide appropriate fire brigade access
 - Hydrant covers mounted flush & square to fire plug.
 - Fire brigade has unobstructed with clear access to the fire plug.

Bushfire Management Overlay (if applicable)

- Implementation of defensible space as per Bushfire Management Plan
- Common property vehicle access constructed as per Bushfire Management Plan or Endorsed Plans
- Appropriate Section 173 Agreements

If any of the above items are incomplete, when will the site/development be ready for inspection by CFA?

Date:
