

SMOKE ALARM QUIZ

THE CORRECT RESPONSES ARE BELOW.

1. How many smoke alarms do you need in your house?

Answer: b) At least one on every level, according to the law. It is also recommended to have one in every room that you sleep.

2. How often should you test your smoke alarms?

Answer: a) Every month.

3. How often should the battery be replaced?

Answer: b) Once a year. This allows you to replace them *before* they go flat.

4. Where should a smoke alarm be located?

Answer: a) On the ceiling.

5. If you're renting, who is responsible for installing and maintaining smoke alarms?

Answer: a) The landlord, this is the law.

6. If you're renting, who must test the smoke alarm each month?

Answer: b) The renters who live there.

7. If you're renting and the smoke alarm is chirping or not working (when you press the test button), who must you tell?

Answer: c) The landlord through the real estate agent must be informed immediately. They are responsible for maintaining working smoke alarms, including replacing batteries.
