

Footnote:
Brigade Areas that had less than ten emergency incidents have been excluded.
This information does not contain CFA's response to Emergency Medical Response as CFA is a support agency and CFA has no response time targets for these incidents.
Road Crash Rescue has also been excluded as these incidents are subject to different response protocols and service delivery standards.
This map contains an aggregate of response time compliance across Hazard Class 2, 3 and 4.
Where the service delivery standard is met by any brigade, this may be from a CFA brigade outside of its own Brigade Area, FRV or SES Unit.
This map may contain data from other fire services responding into CFA areas.
